

Transportation Planning Specialist

GIS | Transit Planning | Data Analysis

- Planning experience in both large and small transit benefits areas.
- Well-versed in data collection and GIS analysis
- Familiar with ESRI: ArcGIS Desktop/Online/Pro, Survey123, Network Analyst, Microsoft Suite as well as Adobe InDesign, Adobe Illustrator, Microsoft Publisher, Remix, and Avail's CAD/AVL suite.

Education

University of Washington

2019 - 2021

BA-Sustainable Urban Development

Built an understanding of municipal, national and global policy through the lens of equity, economics and the environment. Focused on analyzing policy to inform on how to make our cities not simply successful, or environmentally neutral but how to progress in urban planning in a way that was responsible by embracing and balancing all aspects of sustainable development.

- Through thorough research in the social production of space as well as transit-oriented development generated convincing argument for the feminization of public transit, focusing on creating transit policies and structures that are accessible and appropriate for demographics that follow day to day patterns outside of the traditional 9-5 workday.

GIS Certification Program: Although the certificate program was completed, due to mitigating personal circumstances, the certification was not granted.

Relevant Experience

Intercity Transit

10/22-Present

Associate Planner

Planned transit service in the Lacey, Olympia, Tumwater and Yelm areas, managing routes, stops and service. Worked with Jurisdictions to ensure needs of transit were addressed as the cities chose to grow and develop.

- Used GIS to map transit service and correlate it with information regarding the transit benefits area to better plan service.
- Aided jurisdictions and developers in creating more sustainable growth by ensuring that transit needs were addressed in all development projects.
- Worked with consulting firms and contractors to enact bus stop enhancement projects that would allow for easier access to transit services at 120 stops in Intercity's network.

King County Metro, Transit Route Facilities Division

9/21-9/22

Transportation Planning Veteran Fellow

Work with the ADA Coordinator metrics, spatializing and visualizing ADA related issues to inform and generate a transition plan as King County builds to increase accessibility to its most vulnerable citizens.

Andrew Goffeney

Olympia WA, 98501
(503) 964-0968
Drewgoffeney@yahoo.com

- Cleaned, processed, prepared a suite of transit data to ultimately be spatialized with geoprocessing tools.
- Use ArcGIS, Adobe Illustrator and Microsoft PowerBI to generate comprehensive visuals to present issues and prioritize areas in King County that would see the most benefit from retrofit.
- Worked as a member of a team to generate solutions to the obstacles facing our disabled community and their ability to safely negotiate the county.

Other Experience

- Costco Wholesale, Deli Clerk, (7/19-9/21)
- United States Postal Service, Postal Clerk, (12/18-7/19)
- Starbucks Coffee Company, Shift Supervisor, (2/15-8/16) Barista, (8/16-12/18)
- US Army, Infantryman, (7/06-12/14) Team Leader, (10/11-12/14)
