September 1993 to May 2010 Bates Technical College used a competency-based curriculum. Students earned *professional-technical ratings* according to their mastery of skills and tasks at predetermined industry performance standards. These ratings show on the transcript under the "Grade" column, according to the following rating scale:

Continuing education courses are rated "S", Satisfactory or "NC", No Credit. "S" is not included in grade point average (GPA) calculation.

Professional-Technical Ratings:
Rating of 4: Performs above industry entry-level requirements / standards. Highly competent.
Rating of 3: Performs at industry entry-level requirements / standards. Competent.
Rating of 2: Progressing toward industry entry-level requirements / standards. Needs additional training and supervision.
Rating of 1: Exposed to training, but not progressing.
Rating of 0: No instruction offered or not evaluated.
             (Ratings are with the equivalent Grade Point Value)
"**W**" means withdrawn from program.
"**I**" followed by any rating indicates In-progress– no credit awarded.
"**P**" followed by a rating of 3 or 4 indicates credit awarded from prior learning or experience.
"**IC**" means incomplete and is only used for academic classes
"**S**" means satisfactory
"**U**" means unsatisfactory

Academic courses used the traditional letter grade system:

Letter grade	Grade Point Value (GPTS)
A	4.0
A-	3.7
B+	3.3
B	3.0
B-	2.7
C+	2.3
C	2.0

CALCULATING THE GRADE POINT AVERAGE
Competencies and grades completed prior to May 2010 are transcribed based on the following information:
The grade point value of the academic course letter grade and the rating of the professional-technical course is multiplied by the clock hours in each course (not shown on transcript) to determine the grade points.
 For example:

	Grade/Rating	Value	x	Clock Hours	=	Grade Points
Human Relations	B-	2.7		55		148.5
Safety Standards	4	4.0		66		264
Wildland Firefighter	3	3.0		41		123
				162		535.5

In the example above, total Grade Points of 535.5 divided by the total of 162 Clock Hours equals the Grade Point Average (GPA) of 3.3. On the transcript, total grade points (GPTS) are divided by the total clock hours (GPA HR) to arrive at the grade point average (GPA).

Credit hours (noted on the Transcript under the heading of "CREDIT HRS") equates to 1:16.5 clock hours as determined by the Washington State Board for Community and Technical Colleges. These hours are totaled and combined in one number under the heading GPA HR.

These are not combined with the cumulative GPA of grades earned starting May 2010.
