Relationship with Applicant:

Applicant most significant strengths:

Written by Douglas Hammel:
Julius is conceptually a superior student. In the majority of his work, he demonstrated an ability to absorb new concepts and apply them both to theoretical and real-world problem solving. He began the Quarter with practical academic skills and continued to improve on his abilities. He could improve his work by focusing on basic writing skills and completing all assignments. He was an avid and insightful contributor in Seminar and made excellent use of class time to broaden his understanding of Human Resources materials. He contributed thoughtful and well-developed posts and detailed analyses. He consistently showed a growing command of the discipline. His final project was a term paper focusing on Organizational Compensation Systems that included many insights into the workings of an auto dealership. His writing is structurally developmental but conceptually excellent. I recommend this student for advanced academic study.
