

Jane Chapman MPA, Evergreen Alumni

Letter of Recommendation for:

Michael “Rex” Rexroth

I've collaborated with Rex for over a year on a very large and complex project. His contributions took the project to the next level repeatedly. Rex is a problem solver, able to identify areas of improvement, and create pathways to success like no one I've ever worked with. He is brilliant and humble.

I encouraged him to apply to Evergreens Public Administration Master's Program because I can see him going far in state government. He will be a wonderful addition to your 2023-24 cohort.

Vehicle Licensing Office Manual Rewrite Project

Department of Licensing

2021-2022

- Creativity
- Leadership
- Organization
- Problem solving
- Teamwork

Respectfully,
Jane Chapman, MPA

2022

Vehicle & Vessel Operations Licensing Representative 4

When Rex joined the team to do the comprehensive rewrite of the Vehicle Licensing Manual, he jumped in with both feet. He worked tirelessly in multiple workgroups with complex layers of review. He would often come to our work session with an idea to “pitch”. His ideas were always well thought out, thorough, and fit seamlessly into the success of the project. He's sharp, funny, kind, and friggin' brilliant. 2022

Policy and Compliance Specialist Licensing Representative 4

When I accepted a position in another unit, I knew Rex had to have the opportunity to fill my old position. I shared with my manager what an amazing asset Rex would be to the team and how he would solve several deficiencies on the team. The first area was in computer science and technology, the second area was in policy and technical writing, the third area was in creative problem solving. His transfer was accepted, and he has been reinventing the unit ever since. It also allowed him to continue to work on the project we had been collaborating on. I felt so secure leaving it all in his hands!
