Objective

I'm looking to join a team that has passion for fair treatment of people and responsible stewardship of our environment. This team wants to make sure that future generations, if not current ones, can live free of exploitation and without worry that a few mistakes or unforeseen circumstances could deprive them of a decent life. They also recognize that people are more important than profit and reflect that in their efforts to improve our community.

Skills

- Customer support with urgency and confidentiality via IT technician roles
- Extensive experience with MS products, video conference tech, and other office software
- Frequently host gatherings with people from multiple backgrounds and foster a non-judgemental atmosphere where diverse opinions can be discussed freely
- Work with multiple departments to solve issues via Safety role
