Determined by dividing the total number of points earned by the total number of units in which grade points were recorded.

Revised for Fall 2021

Improving a Grade:

A student may attempt to improve a grade in any given course by repeating the course (effective Fall 2003). All grades remain on the student's transcript and the grade for the last enrollment in the course will be used in determining grade points. A student who has earned a Bachelor's Degree may not repeat courses to improve the Undergraduate Degree Grade Point Average. However, the cumulative GPA reflects the grade earned as a result of repeating the course.
