The training is equivalent to a one-year practical nursing program, including basic knowledge in the following areas: nursing techniques and clinical applications, basic anatomy and physiology, pharmacology, and medical terminology. Additional credit in anatomy and physiology may be awarded on the basis of institutional evaluation.

(12/81)(12/81)

HM2NER-HM-00201-JUN-1998

Hospital Corpsman:

Serves as an assistant in the prevention and treatment of diseases and injuries, and in the administration of medical departments. Administers first aid; assists with physical examinations and makes basic clinical assessments; provides nursing care to patients; administers medicine and collects specimens; assists in the transportation of the

sick and injured; transcribes medical orders; writes admission nursing notes; admits, transfers, and discharges patients; maintains mechanical equipment on the ward. Submits routine medical reports; supervises personnel in performance of clinic or ward duties; maintains medical journals, logs, and health records; prepares, processes, controls, and transmits optical-scan documents; instructs medical and nonmedical personnel in general and emergency medical care and in self-administration of medications; performs elementary laboratory procedures, such as urinalysis, blood count, and preparation of smears.

NEC-8404

NONE ASSIGNED01-JUN-1998

Field Medical Service Technician:

Provides medical services for personnel in field units. Provides technical and administrative assistance to support the mission and functions of Navy and Marine Corps field units. Maintains organizational level AMAL's. Assists in the procurement and distribution of supplies and equipment for field use and combat areas. Maintains field treatment facilities. Renders first aid and emergency medical treatment to unit personnel/combatants. Coordinates and performs medical evacuation procedures. Ensures observance of field sanitary measures and preventive measures in specialized warfare. Conducts first aid and health education training programs.

- None

NEC-8541

NONE ASSIGNED01-JUN-1998

Respiratory Therapy Technician:

Assists medical officers in treating patients using controlled breathing apparatus that employ medical gases. Performs medical gas therapy, nebulization therapy, mechanical ventilation, and pulmonary function testing. Maintains and is knowledgeable of all safety precautions related to gas storage and handling. Performs minor repair and preventive maintenance on tracheotomy and endotracheal apparatus, ventilator, rubber goods, and electronic monitoring and resuscitation equipment.

- None

88M20

MOS-88M-00201-FEB-1999

Duty

Motor Transport Operator:

Operates wheel vehicles to transport personnel and cargo. Operates single-unit wheel vehicles with a capacity of five tons or less in all conditions of light, weather, and terrain; applies safety rules and practices; ensures proper loading of vehicle; performs simple vehicular maintenance; keeps records of operation and performance; may serve as chauffeur or dispatcher; depending on the type of unit to which assigned, may also perform the same duties for tractors, semitrailers, tank transporters, and other vehicles with a capacity of more than five tons. Provides technical guidance to subordinates; may serve as dispatcher; performs recovery of vehicles.

- Personnel Supervision3 SHL
- Motor Vehicle Operation3 SHV

This recommendation for skill level 20 is valid for the dates 11/92-2/95 only.

(11/92)(11/92)

77F20

MOS-77F-00101-OCT-1999

Duty

Petroleum Supply Specialist:

Operates and maintains petroleum storage, dispensing, and distribution facilities and pipeline systems. Receives and dispenses bulk and packaged petroleum products; operates forklift trucks, conveyors, and cranes in loading, unloading, moving, and storing petroleum supplies; marks petroleum containers for proper identification; conducts

safety inspections of storage facilities; performs basic preventive maintenance on petroleum storage and handling equipment. Supervises aircraft refueling; assures adherence to safety procedures; maintains inventory records of petroleum products; inspects petroleum storage sites; may supervise small petroleum storage or dispensing activity; maintains pipeline systems and pressure reducing stations; applies fire fighting and fire prevention techniques.

91V20
Secondary

MOS-91V-004 01-OCT-2002

Respiratory Specialist:

Assists with the care and treatment of patients requiring respiratory therapy; performs pulmonary function tests under the supervision of a physician or anesthetist. Administers respiratory therapy and performs pulmonary function tests; receives and interprets treatment requests; prepares and tests equipment; mixes prescribed cardiopulmonary medications; verifies identity and instructs, orients, and positions patient for therapy; adjusts controls of intermittent positive pressure breathing apparatus and administers therapy; assesses tidal volume and adjusts apparatus to meet ventilatory changes; observes, corrects, and records patient response; administers aerosol and gas therapy; adjusts and maintains equipment during operation and observes safety regulations; administers pulmonary drainage procedures; percusses and vibrates patient; collects and visually analyzes sputum specimens; assists with cardiopulmonary resuscitation, evaluates effectiveness, and records results; prepares and tests nebulizer for administration of medication; follows isolation procedures; disassembles, cleans, sterilizes; assembles, and tests respiratory therapy equipment; adjusts volume ventilator controls for initial operation and during therapy; observes patient response and evaluates ventilator effectiveness; weans patient from ventilator dependence; prepares, tests, and administers all modes of special volume ventilator equipment; applies electromechanical monitors; evaluates airway potency; instills solutions; hyperinflates and hyperoxygenates patient; analyzes arterial blood samples; records and interprets results; auscultates lungs; aspirates tracheobronchial passage; inflates and deflates tracheostomy cuff; provides tracheostomy tube and stoma care; evaluates patient cardiorespiratory status; utilizes emergency ventilators; evaluates patient cardiorespiratory status; utilizes emergency ventilators; evaluates resuscitator's effectiveness; implements culturing procedures; applies corrective actions for contaminated equipment; reads and evaluates patient charts; instructs patient and family in breathing exercises and postural drainage procedures; evaluates ability to operate home therapy equipment; maintains safe, clean, and orderly work area; stores and maintains supplies and equipment; calibrates and slopes arterial blood gas analyzer; applies safety precautions relevant to pulmonary function testing;

calculates data and compares results; receives and issues supplies and equipment.

Credit may be granted on the basis of an individualized assessment of the student.

(12/01)(12/01)

63D30
Primary

MOS-63D-002 01-JUN-2003

Self-Propelled Field Artillery System Mechanic:

Performs and supervises maintenance on tracked and wheel vehicles. Able to perform the duties required for Skill Level 20 of MOS 63D and 45D (Self-Propelled Field Artillery Turret Mechanic); plans and organizes work schedules; assigns duties; performs operational and administration duties; instructs and supervises subordinates in appropriate practices, procedures, and safety; utilizes salvage techniques.

JST Official Transcript Explanation

The American Council on Education (ACE) is the nation's unifying voice for higher education. ACE serves as a consensus leader on key higher education issues and seeks to influence public policy through advocacy, research, and program initiatives. ACE's Military Programs evaluates formal service courses and occupations approved by a central authority, employing the services of teams of subject-matter specialists from colleges and universities (professors, deans, and other academicians) that, through the discussion and the application of evaluation procedures and guidelines, reach consensus on content, description, and amount of credit to be recommended for selected courses and occupations. For comprehensive information on the ACE Military Evaluation process, consult the Course and Occupation Evaluation Systems, described in the online Guide to the Evaluation of Educational Experiences in the Armed Services at: <http://www.acenet.edu/higher-education/topics/Pages/College-Credit-for-Military-Service.aspx>.

ACE, the American Association of Collegiate Registrars and Admissions Officers (AACRAO), and the Council for Higher Education Accreditation have developed a set of guidelines contained in the Joint Statement on the Transfer and Award of Credit (<http://www.acenet.edu/news-room/Pages/Joint-Statement-on-the-Transfer-and-Award-of-Credit.aspx>) that are intended to serve as a guide for institutions developing or reviewing policies dealing with transfer, acceptance and award of credit for courses and occupations completed in a variety of institutional and extraintitutional settings, including the military. More information on guidelines for awarding credit for courses and occupations appearing on JST transcripts is contained in The AACRAO 2003 Academic Record and Transcript Guide.

Service members may request copies of JST transcripts directly from the Operation Centers at <https://jst.doded.mil>. ACE does not issue these transcripts or make any adjustments to missing or incorrect information contained in them. Service members must contact the respective service specific Operations Centers for adjustments or corrections to the transcripts. Colleges and universities may also receive web-based official copies of these documents by contacting the JST Operations Center at jst@doded.mil.

Understanding JST Transcripts

The full exhibit and description for courses and occupations listed on JST transcripts can be found in the Guide to the Evaluation of Educational Experiences in the Armed Services which is available only online at: (<http://www.acenet.edu/news-room/pages/military-guide-online.aspx>) and updated on a daily basis as new courses and occupations are evaluated for recommended credit.

Key to transcript terms:

Military Course ID - This is the number the military service has assigned for this particular course.

SH - Semester hours.

ACE Identifier - The number ACE assigns a particular course. Courses are identified by a 2-letter prefix that designates the military service (AF - Air Force, AR - Army, CG - Coast Guard, DD - Department of Defense, MC - Marine Corps, and NV - Navy), followed by a unique eight-digit course identifier.

ACE Credit Recommendation is listed in semester hours, in the following categories:

V = Vocational; **L** = Lower level (freshman or sophomore level); **U** = Upper level (Junior or Senior Level); **G** = Graduate level.

Dates Taken/Dates Held - Courses and occupations will normally have a start and end date that will show the time period the course was completed or the occupation was held.

Location - Valid location(s) where the course was completed.

Occupational Codes:

Army MOS:

MOS - Army MOS has 5 digits. The first 3 digits identify the occupational specialty and the last 2 digits identify the skill level (E1-E4 = skill level 10; E5 = skill level 20; E6 = skill level 30; E7 = skill level 40; E8 = skill level 50; E9 = skill level 60).

Navy Rates and Ratings:

NER - Navy enlisted rates are occupation identifications assigned to personnel at paygrades E-1 to E-9. Each general rate involves the performance of entry-level tasks and leads to one or more ratings. Career patterns from recruit to master chief petty officer are identified by 4 to 5-digit codes.

NEC - The NEC Structure supplements the Enlisted Rating Structure by identifying skills requiring more specific identification than that provided by general rates and ratings and that are not rating-wide requirements. Selected NECs have been evaluated by ACE to date.

LDO, NWO - Limited Duty Officer, Navy Warrant Officer - Technical officer specialists who perform duties that are technically oriented, with skills acquired through experience and training that are limited in scope to other officer categories. These specialties are normally identified by 4 digits, each successively providing more precise identification of the individual holder.

Marine Corps:

MCE - an MOS has 4 digits and a descriptive title; the first 2 digits normally describe the occupational field and the last 2 digits identify the promotional level and specialty within the occupation.

MCO - officer MOS.

Coast Guard:

CGA - Coast Guard officer aviation competencies.

CGR - Enlisted rating structure used for classified enlisted personnel and qualifications, with career levels from recruit to master chief petty officer.

CGW - Coast Guard Warrant Officers are technical officer specialists who perform duties that are technically oriented and acquired through experience and training that is limited in scope and relation to other officer categories.

MATMEP - Maintenance Training Management and Evaluation Program, a standardized, documentable, level-progressive, technical skills management and evaluation program for enlisted aviation technical maintenance training. The Summary sheet submitted by the service member lists the current level of training completed and should be used by the evaluator to verify the attained level in awarding credit.

DANTES - The Defense Activity for Non-Traditional Education Support maintains the educational records of the service members who have completed DANTES subject Standardized Tests (DSSTs), CLEP examinations, and GED tests. For examinations administered at military installations, results of these tests may appear on JST transcripts for consideration in the award of the recommended credit. However, individual colleges and universities may reserve the right to request official scores directly from ETS or DANTES, to confirm completion of these exams and the credits recommended.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP) - The College-Level Examination Program or CLEP provides students of any age with the opportunity to demonstrate college-level achievement through a program of exams in undergraduate college courses. There are 2,900 colleges that grant credit and/or advanced standing for CLEP exams.

SUMMARY

Name: RASMUSSEN, WILLIAM ALAN		SSN: XXX-XX-XXXX				
ACE Exhibit Number	Military Course Number	Title / Subject	Date	Credit	Level	
AR-2201-0197	AR-2201-0197	Basic Military Training	04-JUN-1982			
		Marksmanship		1	L	
		Outdoor Skills Practicum		1	L	
		Personal Health		1	L	
NV-0703-0005	B-300-0010	Personal Physical Conditioning	02-APR-1981	1	L	
		Hospital Corpsman, Basic				
		Anatomy And Physiology		2	V	
		Drug Therapy		1	V	
AR-0709-0070	081-68W10 Ph 3	Emergency Care	14-SEP-2009	3	V	
		Patient Care Procedures		6	V	
		Health Care Specialist (MOS-T)				
		Advanced Emt		3	L	
AR-1406-0264	5K-SI5K/012-SQI8	Patient Care Procedures	10-MAY-2012	3	L	
		Army Basic Instructor				
		Introduction To Teaching And Learning or Principles Of Learning And Teaching or Classroom Management for Teachers		3	L	
NER-HN-001	HN	Hospitalman	01-SEP-1981			
		Practical Nursing Program (One-Year Training is Equivalent)		0	V	
		Anatomy and Physiology on the Basis of Institutional Evaluation		0	L	
		Emergency Medical Care		2	L	
		Health and Hygiene		2	L	
		Medical Terminology		1	L	
		Nursing Clinical		5	L	
		Nursing Techniques		3	L	

Level: V=Vocational Certificate L=Lower Division Baccalaureate/Associate Degree U=Upper Division Baccalaureate G=Graduate

This transcript represents credits RECOMMENDED by the American Council On Education (ACE) and is provided for your information and academic advisement, but is not an official component of the JST transcript.
